Participant Feedback

“This program is wonderful. It is wonderful that these people take their time out to educate us. I have learned a lot especially about self care. I was a little hesitant about doing this but the little time I took to do was time to myself and things that I learned I will use in my practice.”

~ Mary Teter - Massillon, Ohio~

“My first thoughts were ok if I get some CE's that would be grand, but then thinking about the requirements thinking will it be worth my free time to participate. There certainly is not time in a usual day of taking calls to do much else but answer the phone. After day 2 my mind set changed to hey think of the possibilities for adaptation to my work environment. Change happens on a continuum and who else but staff to have input and offer changes that benefit us as well as the patients. Each offering is unique and pertinent to nursing practice no matter your employment setting. Nursing is a continual learning process and this provides one more avenue of thinking out of the box about yourself and your patients.”

~ Sylvia Suszka Hildebrandt – Kent, Washington~

“The AON was an enlightening event that makes you stop and think about how we practice individually and overall. It allowed me to open my scope to more difficult topics in the ever changing nursing environment.”

~ Kim Pierce, MSN RN – Waynesville, North Carolina~

Participant Feedback

"I feel that the Art of Nursing program is such a wealth of information – it helps with keeping up on the new trends in medicine, looks at the well being of the nurse herself. It reminds us that we have to take care of ourselves also or we will not be able to take care of our pts appropriately."

~ Mary Jo Byers – Twinsburg, Ohio~

"This was a great first time event (for me) and I hope there are more planned for the future!"

~ Lisa Winters – Black Diamond, Washington~

"I have just survived my first year of nursing and I love being a nurse and serving those in need. Thank you for continue to teach and help me strive to be better."

~ Jason C. Solomon – Akron, Ohio~

"This has been a great opportunity to learn from a number of speakers who a well known in their field, who spoke on a variety of topics. It was very helpful to be able to listen to the videos on my own time as I was unable to listen to the live broadcast."

~ Kathleen Lute – Shoreline, Washington~

"This was my 3rd year for the Art of Nursing program and I can't wait for next year. The flexibility of the program and the superb professional faculty Elizabeth uses make it a very worthwhile program for all nurses."

“The Art of Nursing has been educational and inspirational. I'm excited about it since it discusses holistic nursing and how to implement it, something I haven't seen anywhere so I'm grateful to learn this through this program.”

~ Patricia Dillon – Pottstown, Pennsylvania~

“The Art of Nursing brings relevant nursing topics to the table, and gives great ideas for caring for our patients and for ourselves. It is well worth watching.”

~ Linda Elder – Apple Creek, Ohio~

“The Art of Nursing is a friendly, professional and highly educational program for nurses to learn some of the latest trends in the field. The beauty of this program lies in its ability to stretch out through the summer to allow for busy nurses to take one lecture a week and really absorb that material until all 12 interviews are completed. The speakers are highly qualified and very engaging. Elizabeth's keen interviewing skills make for a very worthwhile learning experience!

~ Barbara Byrne Notte, BSN, RN, HN-BC, Reiki Master Teacher, - Pottstown, Pennsylvania~

“The AON is worth your time. It energizes you to be better. I would recommend to others to take time to connect with fellow nurses who have the same interests, to compare how you do things in your state, hospital, clinic etc. The more shared information makes us stronger as people and as nurses.”

~ Jennifer Crane – Ellensburg, Washington~

“This is a wonderful program and I hope it continues forever!”

“Thank you to each speaker who took the time to share their life career achievements with us. Your expertise was exceptional. Level of education through the roof. Thank you to the author and crew of the Art of Nursing. The whole program was well designed, speakers were obviously vetted and each presentation was just about the right length of time. Thank you to this institution for purchasing this program for their staff. We don't thank you enough for all the things you do for the nursing service.”

~ Patricia Euga – Collingdale, Pennsylvania~

“Once again, Elizabeth Scala serves to refresh our experience as nurses with timely topics that apply to all nurses.”

~ Linda McClure – Racine, Washington~

“Thank you so much for offering The Art of Nursing. You advertise ‘Keeping Pace with the Profession’- my comment is that The Art of Nursing exceeds the pace the nursing. It was truly an exceptional program. If I had my way I would make it mandatory for all nurses. I was able to learn about current and future trends in nursing. I gained insight into areas of nursing that I am unfamiliar with and found out we share many similarities. I am looking forward to 2017 and will keep telling all my colleagues and leadership team about it.”

~Laurie Laugeman, RN, BSN, HNB-BC~
